Distinctly personal and nationally recognized, DePauw promises a set of exceptional college experiences marked by intellectual rigor, a dynamic faculty, and an engaging residential campus community shaped by a breadth and depth of perspectives inside and outside of the classroom. When these are taken together, a college education at DePauw results in an uncommon experience and preparation for a lifetime of learning and living.

General Information
Founded in 1837 by the Methodist Church, DePauw University is a private, selective, coeducational, residential, undergraduate College of Liberal Arts and School of Music. The University or specific degree programs are accredited by the: North Central Association of Colleges and Secondary Schools, University Senate of the United Methodist Church, Committee on Professional Training of the American Chemical Society, National Council for Accreditation of Teacher Education, Indiana Professional Standards Board for the State of Indiana, Commission on Accreditation of Allied Health Education Programs (CAAAEP), and National Association of Schools of Music.

Campus
Thirty-six major buildings on 695 acres, including a 520-acre nature park, located in Greencastle, Indiana, a 45-minute drive west of Indianapolis. Historic East Colleague, built in 1877, is listed on the Register of Historic Landmarks.

Academic Calendar
4-1-4 calendar with two 15-week semesters separated by a four-week Winter Term devoted to on-campus course work, internships, independent study, study abroad or volunteer service.

School of Music
The School of Music, moving in June 2007 to the stunning new Judson & Joyce Green Center for the Performing Arts, provides an opportunity for conservatory-level training within a liberal arts and sciences environment. Faculty credentials rival those of conservatory professors. More than 150 performances are offered each year. Students not majoring in music are welcome to participate in the ensembles; in fact, about one-third of the student body is involved in the School of Music.

National Distinction
DePauw ranked eighth among more than 800 liberal arts colleges as the source of top business executives, DePauw ranked eighth among more than 800 liberal arts colleges as the source of top business executives, according to Standard & Poor's. DePauw ranked 16th among private liberal arts colleges as the baccalaureate source for Ph.D. degrees in all areas of study, according to Standard & Poor's. DePauw ranked 16th among private liberal arts colleges as the baccalaureate source for Ph.D. degrees in all areas of study, according to Standard & Poor's.

Technology
DePauw provides students with state-of-the-art technology facilities and resources, including Internet access and online resources in all University buildings. There is wireless coverage in all academic buildings and in all common areas of the residence halls. State-of-the-art facilities and resources support our laptop program. Started three years ago, the laptop program requires each enrolling student to purchase a significantly discounted, University-configured laptop for his/her use in courses. There are data ports for every student in all residence halls as well. More than 90 percent of all classrooms are equipped for multimedia instruction and presentation, and three innovative laboratories are equipped with touchscreen displays and DeKnow Vision to facilitate interactive learning. DePauw's award-winning 361° programs ensure that all students have access to the best available learning resources and graduate with the requisite skills for success in a digital world.

Areas of Study
Forty-four majors are offered in the College of Liberal Arts, and six majors are offered in the School of Music. Pre-professional programs are available in numerous areas of study, including law, medicine, engineering and ministry.

Programs of Distinction
There are five honors programs that offer internships, research opportunities and/or independent study for exceptional students. The Honor Scholar program is designed for the individual who realizes that wisdom begins with wonder. Honor Scholars epitomize the ideals of a liberal arts education, striving to push themselves intellectually, as well as personally. The program offers the opportunity for interdisciplinary research and creative learning.

The Information Technology Associates Program (ITAP) provides DePauw students with an unparalleled opportunity to link a liberal arts education with technology know-how through four years of on-campus internships with a wide range of information technologies. IT Associates are closely mentored by faculty members, IT staff and experienced students, and they are paid an hourly wage as they master new skills.

The Management Fellows program is a four-year learning experience integrating the study of management and entrepreneurship with a liberal arts education, a top-notch lecture series and a full-time, semester-long paid internship. Students have interned all over the world in the private, public and not-for-profit sectors. Past internship sites include: Goldman, Sachs & Co., Chicago; Partners in Housing Development Corp., Indianapolis; Ernst & Young Global, New York; Brunswick Group, New York; BrandEra, Fort Worth, Texas; and FSC Laboratories, Charlotte, N.C.

The Media Fellows program combines classroom theory with hands-on media experience within The Eugene S. Pulliam Center for Contemporary Media. Semester-long, off-campus internships and a speaker series highlight an exploration into the theory and practice of media and give students insight into the world of radio, television, print, advertising, public relations, film and the Internet.

The Science Research Fellows program includes an inquiry-based introductory course, a summer-long collaborative scientific investigation with a faculty member, and a semester-long, off-campus internship. Recent internship sites include: Oak Ridge National Laboratory, Mayo Clinic, Rhode Island Oceanographic Institute, Harvard University School of Medicine Research Laboratories, and Eli Lilly & Co. Research Laboratories.
